

This listing of claims will replace all prior versions and listings of claims in the application:

**Listing of Claims:**

1. (Previously Presented) A roll of tickets comprising:  
a tube, and  
a plurality of tickets wrapped around the tube, the plurality of tickets having interconnected ends defining rows of perforations therebetween, the plurality of tickets being formed from a substrate having a caliper characteristic between 5 and 8 points and an opacity characteristic of less than 98%.
2. (Original) The roll of tickets of claim 1, wherein the roll comprises 2000 tickets.
3. (Original) The roll of tickets of claim 2, wherein the diameter of the roll is less than 6.5 inches.
4. (Original) The roll of tickets of claim 1, wherein the substrate is reply card stock paper.
5. (Original) The roll of tickets of claim 1, wherein the caliper characteristic is 7.
- 6-10. (Cancelled).
11. (Currently Amended) The roll of tickets of claim [[10]] 1, wherein the opacity is approximately 95%.
12. (Currently Amended) The roll of tickets of claim [[10]] 1, wherein the opacity is approximately 97.5%.
- 13-15. (Cancelled).
16. (Currently Amended) The roll of tickets of claim [[10]] 1, wherein the roll comprises 1000 tickets.
17. (Original) The roll of tickets of claim 16, wherein the diameter of the roll is less than 4.5 inches.
18. (Cancelled).
19. (Previously Presented) A plurality of tickets comprising:  
a sheet of reply card stock paper having a caliper in the range of from 5 to 8 points and having perforations defining detachable tickets therebetween.

20. (Cancelled).

21. (Currently Amended) A plurality of tickets comprising:  
a strip of reply card stock paper having an opacity of less than 98%, a caliper characteristic between 5 and 8 points and having perforations defining detachable tickets therebetween, the strip being folded along at least some of the perforations to form a deck of tickets.

22. (Cancelled).

23. (Previously Presented) The tickets of claim 21, wherein each ticket has a marking imprinted thereon for triggering a light and sensor ticket-counting device.

24. (Previously Presented) A sheet of tickets comprising:  
a plurality of tickets having interconnected ends defining rows of perforations therebetween, the plurality of tickets being formed from a substrate having a caliper characteristic between 5 and 8 points and an opacity characteristic of less than 98%.

25. (Currently Amended) The tickets of claim 24, wherein each ticket has no bar code and has a dark line having a ticket counting indicia thereon for triggering a light ticket-counting device.

26. (Previously Presented) The tickets of claim 24, wherein each ticket has an aperture or notch for triggering a light and sensor ticket-counting device.

27. (Previously Presented) The tickets of claim 24, wherein the sheet of tickets is folded providing layers of tickets.
